SUBJECT INDEX

Activation energy
Empirical kinetic models in thermal analysis (Málek, Criado) 25
Analysis of non-isothermal reaction kinetics. Part 2. Complex reactions (Agrawal) 111
Estimation of activation energy by isoconversion methods (Ozawa) 159
Determination of activation energy in moist and dry conditions for the pyrolysis of $Zn_5(OH)_6(CO_3)_2$ (Wiedemann et al.) 241
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361
AETA
Martensitic transformations in shape-memory alloys. Successes and failures of thermal analysis and calorimetry (Torra, Tachoire) 419
Algorithm
Practical application of isoconversional methods (Vyazovkin, Lesnikovich) 177
Alkali metal
The zonary model of thermal transformations of alkali metal triphosphates (Prodan, Lesnikovich) 269
Alloy
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
Martensitic transformations in shape-memory alloys. Successes and failures of thermal analysis and calorimetry (Torra, Tachoire) 419
Aluminium
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
Arrhenius
Analysis of non-isothermal reaction kinetics. Part 1. Simple reactions (Agrawal) 93
Practical application of isoconversional methods (Vyazovkin, Lesnikovich) 177
Thermoanalytical kinetics for solid state reactions as exemplified by the thermal dehydration of $Li_2SO_4 \cdot H_2O$ (Tanaka et al.) 203
Atmosphere
Determination of activation energy in moist and dry conditions for the pyrolysis of $Zn_5(OH)_6(CO_3)_2$ (Wiedemann et al.) 241
Computer
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77
Constant rate thermal analysis
A comparative study of the resolving power of both conventional thermogravimetry and constant rate thermal analysis (Criado et al.) 187
Controlled rate evolved gas analysis
Controlled rate evolved gas analysis: recent experimental set-up and typical results (Rouquerol et al.) 193
Coordination compound
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium-(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311
Co-ordination compound
Study of the solid state reaction of $Na_3[Rh(C_2O_4)_3]$ synthesis (Logvinenko et al.) 307
Copper
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
Cryomicroscopy
Cryomicroscopy as a support technique for calorimetric measurements by DSC for the study of the kinetic parameters of crystallization in aqueous solutions. Part 1. Nucleation in the water–1,2-propanediol system (Mehl) 475
Crystal
Nucleation and crystal growth in inorganic glass-forming systems. A DTA study (Branda) 373
Crystallinity
Determination of activation energy in moist and dry conditions for the pyrolysis of $Zn_5(OH)_6(CO_3)_2$ (Wiedemann et al.) 241
The effect of water vapour pressure on the kinetics of the thermal dehydration of erbium formate dihydrate (Masuda et al.) 289

Crystallization
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361
Determination of T–T–T and T–HR–T curves from non-isothermal crystallization kinetic experiments (Clavaguera-Mora et al.) 379
Cryomicroscopy as a support technique for calorimetric measurements by DSC for the study of the kinetic parameters of crystallization in aqueous solutions. Part 1. Nucleation in the water–1,2-propanediol system (Mehl) 475

Decomposition
The application of thermal analysis in studying the thermal decomposition of solids (Dollimore) 7
Kinetic analysis of non-isothermal solid decomposition reactions. An approach to the treatment of experimental data (Romero Salvador, Garcia Calvo) 67
The evaluation of kinetic parameters from thermogravimetric curves (Hoare, Hurst) 127
Controlled rate evolved gas analysis: recent experimental set-up and typical results (Rouquerol et al.) 193
Determination of activation energy in moist and dry conditions for the pyrolysis of $Zn_5(OH)_6(CO_3)_2$ (Wiedemann et al.) 241
On a model of thermal internal decomposition of solids (Stoch) 259
Study of the solid state reaction of $Na_3[Rh(C_2O_4)_3]$ synthesis (Logvinenko et al.) 307
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium-(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311
Problems of $YBa_2Cu_3O_x$ formation and decomposition kinetics and mechanism (Šesták, Koga) 321
The kinetic compensation effect for the thermal decomposition of some polymers (MacCallum, Munro) 457

Dehydration
Thermoanalytical kinetics for solid state reactions as exemplified by the thermal dehydration of $Li_2SO_4 \cdot H_2O$ (Tanaka et al.) 203
On a model of thermal internal decomposition of solids (Stoch) 259
The effect of water vapour pressure on the kinetics of the thermal dehydration of erbium formate dihydrate (Masuda et al.) 289

Densification
Kinetics of the sintering of superconducting ceramics $YBa_{2-x}Sr_xCu_3O_{7-y}$ (González-Oliver et al.) 353

Devitrification
Nucleation and crystal growth in inorganic glass-forming systems. A DTA study (Branda) 373

Diffusion
Problems of $YBa_2Cu_3O_x$ formation and decomposition kinetics and mechanism (Šesták, Koga) 321

DSC
The role of heat transfer in the production of DSC curves (Crighton, Wilburn) 1
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
The kinetics and mechanism of the thermal decomposition of tetramminecopper(II) sulphate monohydrate (Živković) 251
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
Complex behaviour of specific heat during structural relaxation of $Fe_{73}Co_{12}B_{15}$ metallic glass (Illeková et al.) 445
Cryomicroscopy as a support technique for calorimetric measurements by DSC for the study of the kinetic parameters of crystallization in aqueous solutions. Part 1. Nucleation in the water–1,2-propanediol system (Mehl) 475

DTA
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
The kinetics and mechanism of the thermal decomposition of tetramminecopper(II) sulphate monohydrate (Živković) 251
The zonary model of thermal transformations of alkali metal triphosphates (Prodan, Lesnikovich) 269
Thermal decomposition of some salts of hexathiocyanato-platinic acid (Zsakó et al.) 297
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium-(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311
Reaction mechanism in non-isothermal syn-

thesis of high-T_c superconducting oxide $YBa_2Cu_3O_7$ (Wu, Chang) 339
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361
Nucleation and crystal growth in inorganic glass-forming systems. A DTA study (Branda) 373

DTG
Determination of activation energy in moist and dry conditions for the pyrolysis of $Zn_5(OH)_6(CO_3)_2$ (Wiedemann et al.) 241
The kinetics and mechanism of the thermal decomposition of tetramminecopper(II) sulphate monohydrate (Živković) 251

Erbium formate
The effect of water vapour pressure on the kinetics of the thermal dehydration of erbium formate dihydrate (Masuda et al.) 289

Explosive
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77

Freezing injury
The kinetics of autolysis in osmotically stressed sea urchin eggs (Williams et al.) 493

Glass
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361
Nucleation and crystal growth in inorganic glass-forming systems. A DTA study (Branda) 373
Complex behaviour of specific heat during structural relaxation of $Fe_{73}Co_{12}B_{15}$ metallic glass (Illeková et al.) 445

Glass transition
Determination of T–T–T and T–HR–T curves from non-isothermal crystallization kinetic experiments (Clavaguera-Mora et al.) 379

Heat transfer
The role of heat transfer in the production of DSC curves (Crighton, Wilburn) 1

Hexathiocyanato-platinic acid
Thermal decomposition of some salts of hexathiocyanato-platinic acid (Zsakó et al.) 297

Hysteresis
Martensitic transformations in shape-memory alloys. Successes and failures of thermal analysis and calorimetry (Torra, Tachoire) 419

Ice nucleation
Cryomicroscopy as a support technique for calorimetric measurements by DSC for the study of the kinetic parameters of crystallization in aqueous solutions. Part 1. Nucleation in the water–1,2-propanediol system (Mehl) 475

Isoconversion
Practical application of isoconversional methods (Vyazovkin, Lesnikovich) 177

Isoconversion methods
Estimation of activation energy by isoconversion methods (Ozawa) 159

Isothermal
Reliability of kinetic measurements for the thermal dehydration of lithium sulphate monohydrate. Part 1. Isothermal measurements of pressure of evolved water vapour (Brown et al.) 221
Nucleation and crystal growth in inorganic glass-forming systems. A DTA study (Branda) 373
Cryomicroscopy as a support technique for calorimetric measurements by DSC for the study of the kinetic parameters of crystallization in aqueous solutions. Part 1. Nucleation in the water–1,2-propanediol system (Mehl) 475

Kinetics
The application of thermal analysis in studying the thermal decomposition of solids (Dollimore) 7
Empirical kinetic models in thermal analysis (Málek, Criado) 25
Building and statistical interpretation of non-isothermal kinetic models (Militký, Šesták) 31
Recommendations for computer-aided data extraction and model search in homogeneous non-isothermal reaction kinetics (Koch) 43
Kinetic analysis of non-isothermal solid decomposition reactions. An approach to the treatment of experimental data (Romero Salvador, Garcia Calvo) 67
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77
Analysis of non-isothermal reaction kinetics. Part 1. Simple reactions (Agrawal) 93
Analysis of non-isothermal reaction kinetics. Part 2. Complex reactions (Agrawal) 111

The evaluation of kinetic parameters from thermogravimetric curves (Hoare, Hurst) 127
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
Some problems concerning the temperature integral in non-isothermal kinetics. Part 3. An approximation of the temperature integral through integration over small temperature intervals (Urbanovici, Segal) 153
Estimation of activation energy by isoconversion methods (Ozawa) 159
An advantageous variant of the Ozawa–Flynn–Wall analysis (Opfermann, Kaisersberger) 167
Practical application of isoconversional methods (Vyazovkin, Lesnikovich) 177
A comparative study of the resolving power of both conventional thermogravimetry and constant rate thermal analysis (Criado et al.) 187
Thermoanalytical kinetics for solid state reactions as exemplified by the thermal dehydration of $Li_2SO_4 \cdot H_2O$ (Tanaka et al.) 203
Reliability of kinetic measurements for the thermal dehydration of lithium sulphate monohydrate. Part 1. Isothermal measurements of pressure of evolved water vapour (Brown et al.) 221
The zonary model of thermal transformations of alkali metal triphosphates (Prodan, Lesnikovich) 269
The effect of water vapour pressure on the kinetics of the thermal dehydration of erbium formate dihydrate (Masuda et al.) 289
Study of the solid state reaction of $Na_3[Rh(C_2O_4)_3]$ synthesis (Logvinenko et al.) 307
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311
Problems of $YBa_2Cu_3O_x$ formation and decomposition kinetics and mechanism (Šesták, Koga) 321
Kinetics of the sintering of superconducting ceramics $YBa_{2-x}Sr_xCu_3O_{7-y}$ (González-Oliver et al.) 353
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361
Nucleation and crystal growth in inorganic glass-forming systems. A DTA study (Branda) 373
Determination of T–T–T and T–HR–T curves from non-isothermal crystallization kinetic experiments (Clavaguera-Mora et al.) 379
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
Complex behaviour of specific heat during structural relaxation of $Fe_{73}Co_{12}B_{15}$ metallic glass (Illeková et al.) 445
The kinetic compensation effect for the thermal decomposition of some polymers (MacCallum, Munro) 457
Kinetics of the thermal degradation of poly(phenylene sulfide) (Day, Budgell) 465
The kinetics of autolysis in osmotically stressed sea urchin eggs (Williams et al.) 493
Non-isothermal kinetics: some merits and limitations (Prasad et al.) 503
On the controversies in TA kinetics (Anderson) 515
Thermal analysis kinetics — past, present and future (Flynn) 519

$Li_2SO_4 \cdot H_2O$
Thermoanalytical kinetics for solid state reactions as exemplified by the thermal dehydration of $Li_2SO_4 \cdot H_2O$ (Tanaka et al.) 203
Reliability of kinetic measurements for the thermal dehydration of lithium sulphate monohydrate. Part 1. Isothermal measurements of pressure of evolved water vapour (Brown et al.) 221

Martensitic
Martensitic transformations in shape-memory alloys. Successes and failures of thermal analysis and calorimetry (Torra, Tachoire) 419

Mechanism
The kinetics and mechanism of the thermal decomposition of tetramminecopper(II) sulphate monohydrate (Živković) 251
Problems of $YBa_2Cu_3O_x$ formation and decomposition kinetics and mechanism (Šesták, Koga) 321
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391

Model
The application of thermal analysis in studying the thermal decomposition of solids (Dollimore) 7
Empirical kinetic models in thermal analysis (Málek, Criado) 25
Building and statistical interpretation of

non-isothermal kinetic models (Militký, Šesták) 31
Recommendations for computer-aided data extraction and model search in homogeneous non-isothermal reaction kinetics (Koch) 43
Kinetic analysis of non-isothermal solid decomposition reactions. An approach to the treatment of experimental data (Romero Salvador, Garcia Calvo) 67
The evaluation of kinetic parameters from thermogravimetric curves (Hoare, Hurst) 127
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
An advantageous variant of the Ozawa–Flynn–Wall analysis (Opfermann, Kaisersberger) 167
Practical application of isoconversional methods (Vyazovkin, Lesnikovich) 177
On a model of thermal internal decomposition of solids (Stoch) 259
The zonary model of thermal transformations of alkali metal triphosphates (Prodan, Lesnikovich) 269
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
The kinetics of autolysis in osmotically stressed sea urchin eggs (Williams et al.) 493

Nickel nitrate hexahydrate
Controlled rate evolved gas analysis: recent experimental set-up and typical results (Rouquerol et al.) 193

Non-isothermal
Building and statistical interpretation of non-isothermal kinetic models (Militký, Šesták) 31
Recommendations for computer-aided data extraction and model search in homogeneous non-isothermal reaction kinetics (Koch) 43
Kinetic analysis of non-isothermal solid decomposition reactions. An approach to the treatment of experimental data (Romero Salvador, Garcia Calvo) 67
Analysis of non-isothermal reaction kinetics. Part 1. Simple reactions (Agrawal) 93
Analysis of non-isothermal reaction kinetics. Part 2. Complex reactions (Agrawal) 111
The evaluation of kinetic parameters from thermogravimetric curves (Hoare, Hurst) 127
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
Some problems concerning the temperature integral in non-isothermal kinetics. Part 3. An approximation of the temperature integral through integration over small temperature intervals (Urbanovici, Segal) 153
An advantageous variant of the Ozawa–Flynn–Wall analysis (Opfermann, Kaisersberger) 167
Reaction mechanism in non-isothermal synthesis of high-T_c superconducting oxide $YBa_2Cu_3O_7$ (Wu, Chang) 339
Determination of T–T–T and T–HR–T curves from non-isothermal crystallization kinetic experiments (Clavaguera-Mora et al.) 379
Kinetics of short-range ordering in αCu–Al alloys (Varschavsky) 391
Complex behaviour of specific heat during structural relaxation of $Fe_{73}Co_{12}B_{15}$ metallic glass (Illeková et al.) 445
Non-isothermal kinetics: some merits and limitations (Prasad et al.) 503
On the controversies in TA kinetics (Anderson) 515

Nucleation
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361
The kinetics of autolysis in osmotically stressed sea urchin eggs (Williams et al.) 493

Osmotic stress
The kinetics of autolysis in osmotically stressed sea urchin eggs (Williams et al.) 493

Platinum compound
Thermal decomposition of some salts of hexathiocyanato-platinic acid (Zsakó et al.) 297

Polymer
The kinetic compensation effect for the thermal decomposition of some polymers (MacCallum, Munro) 457
Kinetics of the thermal degradation of poly(phenylene sulfide) (Day, Budgell) 465

Process
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77

Propanediol
Cryomicroscopy as a support technique for calorimetric measurements by DSC for the study of the kinetic parameters of crystallization in aqueous solutions. Part 1. Nucleation in the water–1,2-propanediol system (Mehl) 475

Rehydration
Reliability of kinetic measurements for the thermal dehydration of lithium sulphate monohydrate. Part 1. Isothermal measurements of pressure of evolved water vapour (Brown et al.) 221

Schiff base
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium-(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311

Sea urchin
The kinetics of autolysis in osmotically stressed sea urchin eggs (Williams et al.) 493

Shape memory
Martensitic transformations in shape-memory alloys. Successes and failures of thermal analysis and calorimetry (Torra, Tachoire) 419

Silica glass
Kinetics of crystallization in the soda–lime–silica system. Part 1. $Na_2O \cdot CaO \cdot 2SiO_2$ and $Na_2O \cdot CaO \cdot 3SiO_2$ glasses by DTA (Koga et al.) 361

Simulation
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77

Sintering
Kinetics of the sintering of superconducting ceramics $YBa_{2-x}Sr_xCu_3O_{7-y}$ (González-Oliver et al.) 353

Software
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77

Solid state
The application of thermal analysis in studying the thermal decomposition of solids (Dollimore) 7
Kinetic analysis of non-isothermal solid decomposition reactions. An approach to the treatment of experimental data (Romero Salvador, Garcia Calvo) 67
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
On a model of thermal internal decomposition of solids (Stoch) 259
Study of the solid state reaction of $Na_3[Rh(C_2O_4)_3]$ synthesis (Logvinenko et al.) 307
The kinetic compensation effect for the thermal decomposition of some polymers (MacCallum, Munro) 457
Non-isothermal kinetics: some merits and limitations (Prasad et al.) 503

Superconductor
Problems of $YBa_2Cu_3O_x$ formation and decomposition kinetics and mechanism (Šesták, Koga) 321
Reaction mechanism in non-isothermal synthesis of high-T_c superconducting oxide $YBa_2Cu_3O_7$ (Wu, Chang) 339
Kinetics of the sintering of superconducting ceramics $YBa_{2-x}Sr_xCu_3O_{7-y}$ (González-Oliver et al.) 353

Superstructure
Problems of $YBa_2Cu_3O_x$ formation and decomposition kinetics and mechanism (Šesták, Koga) 321

TA
On the controversies in TA kinetics (Anderson) 515

TG
The evaluation of kinetic parameters from thermogravimetric curves (Hoare, Hurst) 127
Using thermoanalytical data. Part 6. Heat transfer contribution in TG/DTA/DSC data processing: non-isothermal kinetics — do they become "applied science" by exiting the "dichotomy"? (Biader Ceipidor et al.) 137
A comparative study of the resolving power of both conventional thermogravimetry and constant rate thermal analysis (Criado et al.) 187
Determination of activation energy in moist and dry conditions for the pyrolysis of $Zn_5(OH)_6(CO_3)_2$ (Wiedemann et al.) 241
The kinetics and mechanism of the thermal decomposition of tetramminecopper(II) sulphate monohydrate (Živković) 251
The zonary model of thermal transformations of alkali metal triphosphates (Prodan, Lesnikovich) 269
The effect of water vapour pressure on the kinetics of the thermal dehydration of erbium formate dihydrate (Masuda et al.) 289

Thermal decomposition of some salts of hexathiocyanato-platinic acid (Zsakó et al.) 297
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium-(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311
TGA
Reaction mechanism in non-isothermal synthesis of high-T_c superconducting oxide $YBa_2Cu_3O_7$ (Wu, Chang) 339
Kinetics of the thermal degradation of poly(phenylene sulfide) (Day, Budgell) 465
Thermal safety
A computerized system for research into the thermal safety of chemical processes (Kossoy et al.) 77
Thermodynamics
Evaluation of the kinetic and thermodynamic parameters for the thermal decomposition of bis(η^5-cyclopentadienyl)titanium-(IV) *N,N'*-bis(2-hydroxynaphthalene-1-carbaldene)alkenediamines (Joshi et al.) 311
Transition metal
Study of the solid state reaction of $Na_3[Rh(C_2O_4)_3]$ synthesis (Logvinenko et al.) 307
Triphosphates
The zonary model of thermal transformations of alkali metal triphosphates (Prodan, Lesnikovich) 269

XRD
The effect of water vapour pressure on the kinetics of the thermal dehydration of erbium formate dihydrate (Masuda et al.) 289
Reaction mechanism in non-isothermal synthesis of high-T_c superconducting oxide $YBa_2Cu_3O_7$ (Wu, Chang) 339
